Surface Protection, Redefined

Keep Surfaces
Flawless – Effortlessly

Stone

Protect countertops, islands, and tiles from **stains, etching, and wear** due to frequent use.

Glass

This film provides an **invisible** shield against **scratches, smudges, and environmental damage**—while retaining full optical clarity.

Metal

Guard against **fingerprints, corrosion, and scratches**—without dulling the metallic finish

-CLEAR SUPER SELF-HEALING SURFACE PROTECTION FILM

Protection That Repairs Itself,
So You Don't Have To.

Designed for high-performance environments, our Super Self-Healing Film actively restores itself from minor abrasions, swirl marks, and fine scratches over time or with the application of heat. Keeping surfaces looking flawless, for longer.

—DIMENSIONS:

Width 1.52M
Thickness 6.5mm

—FEATURES:

- Advanced self-healing technology
- Scratch- and stain-resistant
- UV-stable and anti-yellowing
- Maintains a clean, polished appearance
- Suitable for wood, stone, metal, and plastic surfaces

-SATIN **SUPER SELF-HEALING** SURFACE PROTECTION FILM

A refined, non-reflective finish, ideal for modern interiors, luxury surfaces, and high-touch areas.

Designed to protect without drawing attention, this film guards against scratches, smudges, and daily wear while preserving the soft, natural look of matte finishes.

—DIMENSIONS:

Width 1.52M
Thickness 6.5mm

—FEATURES:

- Soft-touch matte texture
- Anti-fingerprint & anti-glare
- Stain-resistant
- Easy to clean
- Compatible with:
wood, metal, non-porous
stone, and more
